To Hiring Manager,

My name is **Giovanni Sette**, and I am a Management Engineer with a Master's degree and extensive experience in applied computer science and industrial optimization. Born in Bern in 1975, I have cultivated a lifelong passion for technological innovation, which I have successfully translated into a career as an **Industrial Engineer and Computer Science Analyst**.

Throughout my professional journey, I have managed complex projects at the intersection of engineering and software development. My international background, including key roles in **Germany, Switzerland, France, and China**, has allowed me to specialize in **Quality Processes for the automotive industry** (IATF 16949) and **Software Design for Smart Factories**.

Key career highlights include:

- **Operational Efficiency:** Implemented custom software solutions that reduced production times by up to **40%**.
- **Industrial Automation:** Introduced automated systems that significantly optimized resource management and product quality.
- **Data & Intelligence:** Leveraged Power BI and advanced hardware/software integration to drive data-driven decision-making.

These experiences have equipped me with a deep understanding of multi-disciplinary project management and emerging technologies. I am a goal-oriented professional with a proactive leadership style. I firmly believe that project success stems from team synergy and clear communication; my ability to motivate and empower the people around me has consistently fostered collaborative and high-performing environments.

I am now looking to bring my expertise to a dynamic and innovative organization where I can contribute to ambitious corporate goals. Your company represents the ideal environment for me to apply my skills in problem-solving and process optimization.

I am fully available for travel and flexible regarding work arrangements. Thank you for your time and consideration, and I look forward to the possibility of discussing how my background aligns with your needs during an interview.

Sincerely,
Giovanni Sette
